

Name: _____

Alba: A Wildlife Adventure

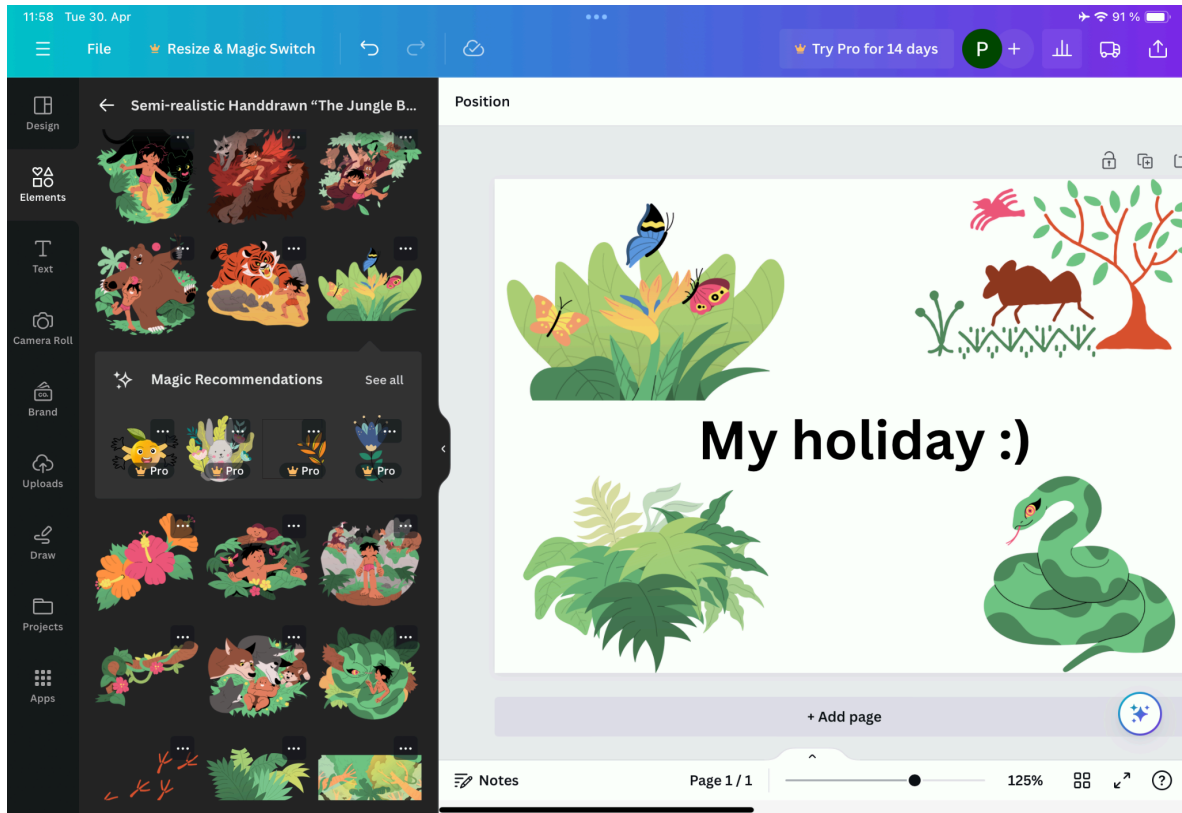

Student`s Booklet

Instructions: Design your own postcard

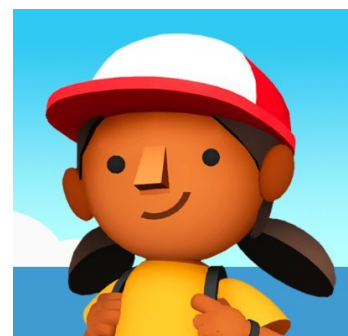

In this booklet you are going to write and design your own postcards. You can use different apps to do this. Please make sure that your postcards have the right format and are also creative.

Here is an example:

The following apps might be helpful for you:

- Canva
- PowerPoint
- Gimp
- Microsoft Publisher
- other creative tools to design postcards ...

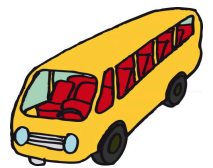

Week 1 - Transport

That's a map of Alba's island. Which parts did you visit this week? On the map, tag where you were, and take some notes concerning who you met and what you saw.

When you came to the island, you arrived by boat. Are there any other forms of public transport that you could use on the island? Think of 3!

1. _____ 2. _____ 3. _____

Compare the infrastructure/public transport to the public transport in your home country. What is the same, what is different? Use the internet to do research! Take some notes here:

Postcard: Write a postcard about your first day on your island! Describe the things you found fascinating and that stood out to you the most. Design your postcard using Canva. Write about 100-120 words.

Worksheet 2 - Protect the environment!

Describe some of the environmental challenges that the inhabitants of the island face:

1. _____
2. _____
3. _____

Now, think about potential solutions to address these challenges, both in the game and in real life. Take notes here:

Use the internet to do some research on environmental organizations in your home country and write down some key information about the one that you think is the most effective one (f.e. What is its goal? How many members does it have? What issues does it focus on?)

Postcard: Write a postcard about the most concerning environmental threat that the inhabitants of the island have to deal with! Additionally, address some possible solutions for this issue!

Design your postcard using Canva and write about 100-120 words.

Worksheet 3 - Flora & fauna

While exploring the island, you have encountered many animals and plant species. Name 3 animals and 3 plants you have discovered! You can find the animals' names in your journal; plant names have to be researched on the internet.

3 Animals:

1. _____ 2. _____ 3. _____

3 Plants:

1. _____ 2. _____ 3. _____

After spending 3 weeks on a Mediterranean island, can you think of any interesting facts about the Mediterranean climate zone? Use the internet to do research and note down 3 facts:

1.

2.

3.

Postcard: Write a postcard about your favorite animal that you discovered on the island! Describe the animal's appearance and habitat. Design your postcard using Canva and write about 100-120 words.
