MICROSOFT Azure and COMPAREX –
By your side in a digital world
Our Vision

Software

By your side on a digital world.

Cloud

We foresee our customers entering the Cloud with safe feelings based on reliable advice and predictable budgets to increase flexibility, access more, be faster and therefore be more competitive.
Portfolio 2016

3 Pillars for Success

COMPAREX SoftCare
- SAM2Go
- COMPAREXOnline
- B2B
- Arbitrage

COMPAREX CloudCare (C³)
- Cloud Evaluation Program
- Onboarding & Migration
- Operation Support
- Billing

COMPAREX ITCare
- Consulting Services
- Innovation Services
- Datacenter Solutions
- Multivendor Helpdesk
COMPAREX
Cloud Consumption Monitoring
What our customers say about the cloud

“I don’t know if the users need all of the workloads included in their assigned plans.” Food producer, USA

“When exceeding my commitment, I can’t assign the invoices from Microsoft to the real originator.” Pump manufacturer, Germany

“Currently we’re controlling our cloud budget only reactively.” Energy supplier, Germany

“It’s an art in itself even to order the subscription. Choosing the right plan for every user, activating and managing them, making subscriptions multitenant… that means lots of effort and many error sources.” Pump manufacturer, Germany
## Budget planning at cost center level

CREATE CLOUD BUDGET

Edit Budget

This dialogue enables you to create time-based budgets based on filter criteria. Please enter:

- The **name** of the budget – e.g. based on filter criteria like a cost center.
- The **amount** of the budget and the period of time pertaining to this scenario.
- A set of **consumption data** you would want to filter for the creation of a budget – like cost centers or a subscription.

**GIVE THE BUDGET A NAME**

**BUDGET AMOUNT** EUR

**START DATE** 3/1/2017

**END DATE** 2/28/2018

Select consumption filter criteria (a filter is created automatically)

**COST CENTER**
- CostCenter A
- CostCenter B
- CostCenter C

**DEPARTMENT**
- Unassigned

**ENROLLMENT**
- 57162381

**SUBSCRIPTION**
- COM_Prod
- COM_QA
- Costumes_Prod
- Development
- Production
- QA
- Lab
Active management of cloud budgets

CREATE CLOUD BUDGET

Edit Notifications
This dialogue will enable you to create automated email notifications to target addresses based on thresholds. Please enter:

- The thresholds in % of the budget attainment at which the notifications will be sent out.
- The email addresses for the notifications.
- An example text for the notifications is provided – you may add certain placeholder.

**Threshold**
50.00 % of 120,000.00 EUR

**Subject**
Cloud cost consumption notification

**Available Placeholder**
@currentconsumption @budget @threshold

**Body**
Dear CIO,

you receive this notification because the current cost (@currentconsumption) has exceeded the threshold (@threshold) of your planned budget (@budget).

Best regards,
your CPO service
Thank you for your attention!
